

Balloon Nomination Agreement 2011

- The cost of frozen semen from Balloon is £1000 payable to Breen Equestrian Ltd.
- This entitles the mare owner to use up to three doses of frozen semen. To prevent wastage, two doses will be sent initially with the third being sent only if required.
- There will be an additional transport cost of £126 inc. VAT payable to West Kington Stud for each shipment.
- West Kington Stud will only be authorised to release the semen once payment and a signed copy of this Nomination Agreement has been received by Breen Equestrian Ltd and the funds have cleared.
- A dose is the amount needed for a single pregnancy – each dose comprises a number of straws. The doses may only be used on one nominated mare for a single pregnancy. Only one covering certificate will be issued per order. If the allocated doses are used on more than one mare with a resulting additional pregnancy, an invoice will be raised for £1000 payable immediately.
- Contact details for West Kington Stud can be found at www.westkingtonstud.co.uk

I, the owner of [], have read this

Nomination Agreement and agree to its terms and conditions.
